

Worcester VTS - Evaluation Form

ST1 ST2
ST3
(please circle)

11 February 2010

Aims: / Objectives:

Travel Medicine
ST3 - Trouble Shooting Eportfolio

Comments / Feedback

Useful afternoon - more rare cases that may appear in general practice. Good tips on Malaria. Useful link to cases which may present.

Very useful session.

Helpful session on infectious diseases. Really helpful session on eportfolio.

Infectious diseases - Excellent speaker. Good cases. More on investigations would have been useful.

Eportfolio - excellent please make this a regular feature in VTS.

Very useful, could have done with being a bit more GP orientated.

Really interesting talk. A lot learnt.

ST3 - trouble shooting - very useful.

Very useful doing DVLA guidelines and also CSA practice. Very relevant.

Interesting talk from speaker which highlighted importance of testing for infectious diseases in community. CSA practice was useful.

Very informative talk on travel medicine. Eportfolio is still a Pandora's box of uncertainty. CSA practice invaluable.

Good practice at CSA scenarios - eye-opening introduction to the exit exams.

Excellent presentation by Dr Roberts. Good CSA cases.

Excellent talk on infectious diseases - informative and useful.

Very interesting talk on tropical medicine - HIV - hepatitis. Good discussion on cases.

Good talk by Dr Roberts, questions made it more GP orientated.

Travel Medicine - Very appropriate, eye-opening. Will re-think my view of thinking re HIV.

Very useful talk on infectious diseases. More information about tests/referrals from a GP perspective would have been useful.

Very good presentation by Dr Roberts, good variety of topics discussed useful for GP.

Useful.

Good.

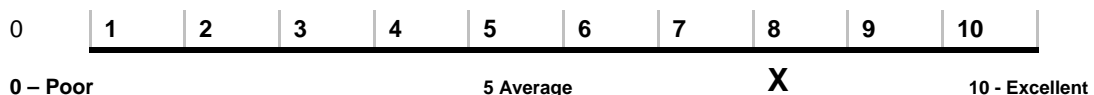

Good, interesting talk.

Good travel medicine.

Good and interesting and informative. Perhaps improved with more GP relating/relevance.

Great case presentations and opportunity to have questions answered.

Useful consultant presentation. Interesting cases.
