

# Worcester VTS - Evaluation Form

ST1 ST2  
ST3  
(please circle)

24 June 2010

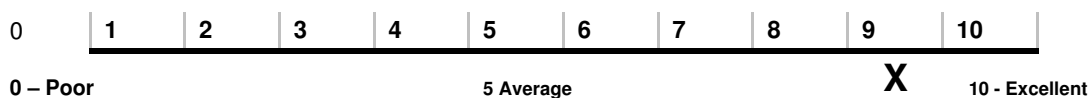

## Aims: / Objectives:

### CKD - Dr Spencer

- General Overview of CKD, from GP Perspective
- Diagnosis
- Investigation
- Management and when to refer

## Comments / Feedback

Interesting.  
 Useful informative around referral and medication.  
 Very clear and useful presentation.  
 Very useful. Greater confidence in dealing with patients with CKD.  
 Overall very good. Good information on referral and medication. An overview of background would have been useful.  
 Very good presentation. Clear guidelines about CKD.  
 Very useful talk about practical management of CKD. I will remember who to refer and when.  
 Useful link to GP curriculum information.  
 Excellent. Referral criteria and NICE guidelines.  
 Good session, good information. Helpful guidance.  
 Good straight forward presentation. Not too much detail.  
 Very good.  
 Very useful. Huge topic, I realized that I need to read about it further.  
 Very useful and informative from practical point of view as GP.  
 Very confident and clear speaker. Slightly complicated information and pitched a little too high for us. Lots of knowledge.  
 Good but assumed some knowledge which was not present for myself as an ST1, who has never worked in general practice.

Name (Optional) .....
