

# Worcester VTS - Evaluation Form

ST1 ST2  
ST3  
(please circle)

4 March 2010

## Aims: / Objectives:

Aims of the presentation:

- 1) Causes of hearing loss
- 2) The types of hearing assessment/investigations
- 3) How to access audiology
- 4) How to interpret audiograms
- 5) Screening services in Worcester
- 6) Understand the prevalence of deafness, equipment available, reasonable adjustments required of GP practices and the disability discrimination act 1995

## Comments / Feedback

Good to know about how refer to audiology.  
 Useful to learn about audiometry and recap hinne/weber. Well organized.  
 Extremely useful for general practice. Referral information good. Enjoyed audiograms and types of hearing loss.  
 Very good session. Helpful.  
 Very good and useful.  
 Excellent on hearing loss. Good insight into referral system. Good refresher on ENT.  
 Very enthusiastic and informative presentation. Good, interactive, practical, like the visual aids. Slides excellent, pitched at right level. Useful to know services available. Useful reminder of rinne and weber. Well laid out slides. Relevant for GP. Interactive. Energetic and entertaining speakers.  
 Very useful talk. Audiology - facilities available of how to refer. Information very useful for GP set up. Interpretation of audograms/hearing tests - useful for GPs, saves referring to ENT clinics.  
 Great talk - informative, excellent interactive session.  
 Good. Interactive. Nice pictures.  
 Very relevant. Very useful. Hats off to consultant.  
 Audiograms - great. Rinne/weber - great. Access to sources - great.  
 Good to look at audiometry. Good to discuss.
