## **Aims**

Mental Health 2
Communication skills in mental health

## Comments / Feedback

Good, interactive, informative session using a variety of teaching methods. Enjoyable and easy to follow.

Good interaction session.

Nice presentation. Well thought-out.

Good. Communication skills, useful.

Very CSA focused. Video useful.

Useful. Thank you.

Interactive. Good session. Useful small group.

Good small group work session – case studies. Good video example of communication in CSA case for depression.

Nice working in small groups CSA video useful.

Good use of case.

Useful session. Good to see CSA case video.

Interactive. Good revision of Medical School communication skills. Video good to see what is expected in exams.

Difficult topic to cover. Good use of different teaching methods.

Interactive session. Good to see example of mental health consultation. Topic covered in an enjoyable way.

Good presentation – interactive. Relevant points. I felt this was a well planned organized event.

Very good and useful. DSM discussion good. NICE discussions – 2 topics I need to review. Curriculum statements in relation to communication skills in Mental Health. Talking about uncertainty of symptoms related to Mental Health. How to establish good rapport between you and patients. Depression criteria and CSA video.

Covered well for absent last minute speaker. Relevant. Well presented. Good use of visual aids and TV.

Good case discussion around medication.

Very good presentation.
