

## Residential - Speech House 03 - 04 September 2009

### Quiz

Very good on learning and refreshing NICE.  
Nice idea. Learnt some things. Scoring wasn't clear.  
Useful - highlight NICE and its importance/relevance.  
Useful and interesting.  
Good.  
Interesting and useful.  
Useful and simple. I think some knowledge based stuff is important.  
Scoring system very ambiguous, wasn't easy to follow how well we were doing.  
Good idea, range of NICE guidelines.  
A little quick with the slides.  
Not broad enough.  
Couldn't see the power point which made it difficult. Maybe needed to have less questions and more teaching on guidelines/emphasis on correct answers.  
Good content, needs clearer structure and more time to complete questions.  
Good idea, bit fast and scoring slightly confusing.  
Good revision, went a bit too fast, Peter should have sat down so we could see questions! Also better scoring structure needed, but very useful and fun.  
Good, but learning points passed too quickly.  
Fun, well planned - would like again.  
Excellent. Great idea. Worked well. Ensure a good mix of all groups.  
Enjoyable, motivational.  
Was a good way to do guidelines but, some questions were too involved and too quick.  
Confusing at times, but made dry topic fun.  
Made me understand how much I need to read up on. NICE guidelines.

### What makes a good GP

Good discussion and useful.  
Good ice breaking exercise - not much to learn.  
Good team building.  
Good. Nice way to start and getting to know other people.  
Fun.  
Reasonable ice breaker, but not that much educational value.  
Poster, pictorial nature was fun and had a much better impact than writing a list.  
Thought provoking, good to make this fun/interactive.  
Poster fun and good ice breaker.  
Didn't learn anything (that I'm aware of).

Good exercise.  
Scissors would have been useful. Good ideas.  
Scissors/glue would have been useful - fun though.  
Good to brainstorm and getting to know people.  
Good teambuilding, ice breaking exercises.  
Good session, fun.  
Good session, a little long.  
Slightly fuzzy/soft. Topics very repetitive.  
Poster on GP was good.

## Planning

Excellent way of planning then seeing what we will do. Good to have input into each session.  
Good  
Okay  
Fine  
Okay  
Got to be done.  
Good organized way of planning things.  
Nice to be able to choose topics. Good to know what we are doing in advance!  
Useful.  
Fine.  
Good to choose subject early in the year.  
Useful to structure term early on.  
Good they used feedback from survey before residential to choose topics.  
Very good.  
Good, to use time to plan term.  
Seems a good tried and tested way of doing this.

## Swine Flu

Strange game, but starts you thinking how both will cope.  
Game wasn't very exciting, but dry difficult topic to teach.  
Okay, quite fun.  
Good way to start morning.  
I think we could have discussed these points without time consuming game.  
Fascinating game, added some tangible reality to the probabilities. Meeting simulation was also very informative, although it would be better to run meetings so that we can all have a go.  
Topical. Liked the game - put it into context.  
Flu game - confusing!! Took a little while to get to grips with the rules!!  
Not useful.  
Ok.  
Complicated and didn't gain much additional information about swine flu.  
Bit confusing.  
Game not overly useful.  
Interesting.  
Ok, good points.  
Has to be done, but good topics.  
Interesting, good to think about, but I don't think we got as much out of it as we could.

Would have been better in main time.  
Not that useful.

## **Practice Meeting**

Thought provoking and gave insight into everyone's roles  
On reflection nice to have acquired the knowledge from this but in practice this was a very long exercise.  
Very interesting - really good group work. Interesting to look at dynamics.  
Good but feedback went on for a long time.  
Good acting, limited use.  
Really good idea - very useful.  
Good idea - useful way to revise team work, feedback etc.  
Could have been done on day 1, when we weren't hung over!  
Too long.  
Good.  
Good to look at difficult roles.  
Good insight into business side of GP.  
Useful exercise especially with Emma's feedback.  
Interesting.  
Long.  
Good. Too much reflection.  
Excellent.  
Was very realistic, insight to how things work.  
Maybe more people involved - several meetings running so more people had a go.

## **Reflective Cycle**

Good  
Nice opportunity to discuss difficult real-life consultations with colleagues - good.  
Useful.  
Useful for eportfolio  
Good.  
Excellent, feel clearer about it now.  
Preferred the book cycle to eportfolio.  
Ok - covered in Foundation years, so a lot of recapping.  
Probably useful  
Ok.  
Good to know what to put on eportfolio.  
Same topic recently covered.  
Good eportfolio information.

Excellent, important for learning and for eportfolio.  
Eportfolio discussion helpful.  
Reasonable. Good for eportfolio.  
Ok, group chat good.  
Ok - useful for eportfolio.  
Nice review.

## CSA

Should do it as much as possible, monthly practice or once a term to enable progress.  
Very good. Most scary, but most useful part.  
Very useful.  
As always very useful indeed - thanks.  
Excellent, more of this please.  
Great, actually enjoyed them!!  
Good.  
Really, really good. Very useful for day to day and the exam.  
Very good practice. Actors were great.  
Good experience, would have been better earlier on in the day or on Thursday.  
Very useful again (may be not on a Friday afternoon), would like to include this.  
Cases may be better on day 1 - cases were very useful.  
Excellent. Maybe best done earlier and not on last day  
Wrong day and time.  
Good, would prefer on Thursday, when not tired or hung over - maybe swap with walk/quizzes.  
Excellent, really useful, needs to be on first day. Would be nice to have a talk on what is expected at CSA, previous situations etc.  
Fab would have been better earlier in the residential.  
Good to practice especially with exam insight.

Over all really good weekend  
Very good residential. Enjoyed and informative. Thank you  
Thank you for organizing this - all excellent practice.  
Walk lovely.  
May be more fun stuff next year. Go Ape!!  
Would have been nice to have a 'fun' section. Enjoyed the walk.  
Very good, but did not feel much clinical input unlike previous years, also not as much fun episodes as last year, eg wine tasting/yoga.  
Nice walk and friendly course organizers.  
Nice 2 days out of hospital, to get to know all GPVTS trainees. Consultation simulation, would have been useful if ST1's had an opportunity to observe the scenarios ST2, ST3. Overall very good, enjoyed.  
Good to know each other, would be great to fit it in twice a year. Talk about courses which might be useful for GP career. Role play of ST3's to be done in front of ST1 and ST2s. It would be nice if all education supervisors attend the residential.  
Do walk on Friday morning. Missed wine tasting.

Would be nice to have an open session for us to ask questions.

Missed wine tasting. Walk on second day am.

Really enjoyed first day group activities on morning. Good activities fun and allowed us to meet the newbies.

Some physical activity - learning a new skill would have been nice eg Tai chi, self defence.
