

Worcester VTS - Evaluation Form

ST1 ST2
ST3
(please circle)

8 September 2011

Aims: / Objectives:

Re-establish VTS as a 'Team'
Look at Triage Exercise
Planning for VTS half day release

Comments / Feedback

Helpful to look at eportfolio learning logs examples. Interesting triage exercise. This teaching session was very useful as I learnt more about eportfolio. Good to promote team discussion. Useful to see examples of eportfolio entries – would be helpful to hear what trainers thought of each entry eg which was good. Allocation Fair. Triage game was fun and interesting. Useful to discuss eportfolio and example logs. Triage exercise interesting and entertaining – not sure what I learnt from it though. Allocation – fine and reasonable! Having VTS – good! Glad we got some say in how we plan our teaching. Good teamwork exercise individual vs teamwork. Discussing various options and considering others perspectives. Nice relaxed atmosphere. Nice fair way of allotment of surgeries. It is actually very useful to learn about VTS requirements. However, we have arranged an eportfolio 'check up' for next Thursday, (with one ST3). Helpful to speak to ST1 and ST3 regarding the practice for ST3 year. Educated on different cases presented by others. Triage exercise – Team work and prioritizing. Helpful advice on eportfolio. Good to get together again and hear experiences from GP. Interesting discussion surrounding decision making, regarding the care rescue dilemma. Interactive. Different and interesting exercise, but not particularly relevant to GP. Cases and guidelines useful. Good to see everyone again and good exercises. Difficult to see triage exercise in relation to GP. Triage – Interesting, lots of talking points. Planning – useful to be able to decide how to spend afternoons. Triage – good to see different opinions/judgments. Planned next two session to go over GP consultation. Fun session. Useful to review guidelines in relation to cases. Good discussions of NICE related to patient cases. Good presentations and group discussion. A good first session back! Very boring and unuseful, from group session Katy's presentation was wonderful. Katy good. Useful session. Katy was great. Big group was thought provoking. Excellent small group session – new hypertension – NICE guidelines. Very useful teaching Katy. Excellent presentation. Very good presentation on changes to NICE guidelines on hypertension.
