

# Worcester VTS - Evaluation Form

ST1 ST2  
ST3  
(please circle)

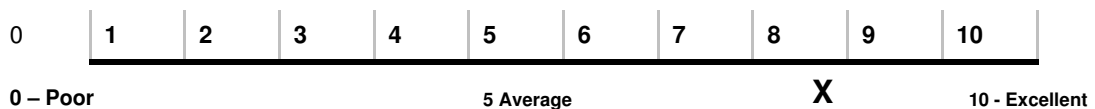

11 March 2010

## Aims: / Objectives:

- Patient Safety
- Why do we have to know about patient safety?
- What is involved in patient safety?
- Incident reporting

## Comments / Feedback

- Good overview of a difficult subject. Good to do case reviews to help with learning.
- Liked the cases. Informative but not too much information.
- Good session with dry topic.
- Useful overview of patient safety with relation to day to day practice work.
- Very good presentation. Interesting to learn about NHPA.
- Very useful discussion about eportfolio. Would be useful if this was done at the beginning of VTS training (first few months).
- Good presentation of a difficult and dry topic.
- Good presentation with interactive power point. Good core discussion.
- Good overview. Helpful for our needs.
- Informative. Dry subject - good to do case studies.
- Interesting case studies discussed.
- Very good overview of patient safety. Good information about website to use.
- Methodological approach. Cases interesting. Well presented.
- Useful scenarios.
- Great job of a totally dull topic.

Name (Optional) .....
