- 1) Diagnosis and management of learning disabilities
- 2) Facilities available to pts/families affected by learning disabilities
- 3) New DES guidelines for learning disabilities
- 4) Learning disabilities and the GP curriculum
- 5) Developmental milestones

Comments / Feedback

Very good speaker. Very interesting

Good and knowledgeable external speaker. Good coverage of curriculum.

Insightful. Good. Maybe more general and starting basic plus increase knowledge/detail during presentation. Helpful handout. Covered GP curriculum well plus what we need to know.

Good – not covered elsewhere. Break up – start more simply, - handout actually very good.

Good question/answer interaction with consultant. Consultant presentation difficult to follow. Cases on DVLA – very helpful – good discussion generation.

Very informative.

Very interesting and informative.

Super.

Guest speaker very informative.
