**Aims: / Objectives:**

**Screening in Men's Health**

**Understand what screening is and how this applies to men's health**

**Learn about the PSA test including its limitations**

**Learn about cardiovascular screening**

**Learn about the new abdominal aneurysm screening programme in the UK**

**Comments / Feedback**

**PSA teaching very useful.**

**Screening in men's health good session. Good to include quiz. Learned about all three screening areas. Handouts would be helpful. Could include patient information leaflet on PSA, would be helpful to see examples of good leaflets.**

**Really useful to learn about PSA testing and the chain of events a raised PSA triggers – need to counsel patients. Learnt about AAA screening – one off – who is eligible?**

**Good, useful.**

**Very important, relevant topic.**

**Useful. I will have to think of something else to present!**

**Good idea of screening and screening tests. Especially a good discussion in the group with PSA screening.**

**Screening in men's health was very well presented and the quiz was helpful and interesting to learn. Gained more knowledge on screening in men and what to do as a GP when a patient presents. Thanks.**

**Interesting revision of screening tools. More interaction in ST1 session would have been useful.**

**It was a useful reminder and I learnt a few new points.**

**Good quiz on screening. Good ST3 session.**

**Liked the interactive session and love quizzes.**

**Excellent session.**

**Great talk. Great small groups. Well done.**

**Excellent men's screening small groups.**

**Very good presentation and PSA/AAA group. Nice small group work.**

**AAA and prostate sessions very useful. Especially AAA.**

**Very useful. Splitting into 3 groups was good.**

**Useful session. Learnt about AAA screening which did not know much about.**

**Interesting. PSA seminar good/well designed.**

**Good presentation.**

**Good session. Well organized. Enjoyed AAA screening programme quiz.**

**Good to start thinking about PSA again.**

**Useful case studies. Didn't know about AAA screening.**

**Useful to talk through cases.**

**Good group sessions as screening particularly the AAA quiz.**

**Raised good learning topics. Nice use of small groups.**

**Screening of CV and abdominal aneurysm very good. Well planned – interactive**
